

INTRODUCING AN INNOVATIVE

# VANISHING PENALTY MARKER FOAM

A New Tool for Referees

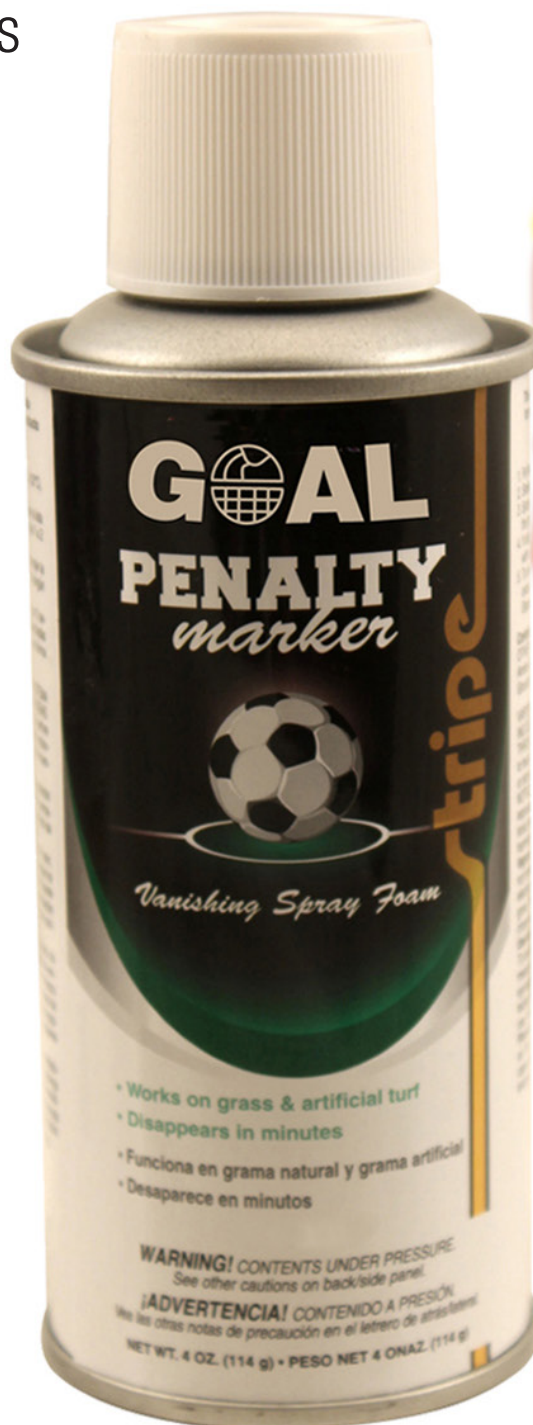

Soccer referees use this vanishing white foam to temporarily mark the field for direct and indirect free kicks:

- identify where players may stand during free kicks.
- mark the spot for ball placement

The can sprays upside down, triggered with the index finger, and fits conveniently into a pocket. The biodegradable formulation can be used on all surfaces, will not harm grass or stain shoes. Mark disappears in 1-6 minutes, depending on temperature and density of application.

Sold by the case: 12 4oz. cans.  
Line length per can is 40 feet.
